

Slipstream Schedule January 2010

Slipstream Show And Tell Trail

The Slipstream Show And Tell Trail is a free resource. At these live demonstrations you will see how easy it is to colour cloth and make your own textile products. You also have the opportunity to try it for yourself to see just how easy it is.

I will have my book, Contemporary Dyecraft (Metz Press), in the store for you to buy your author-signed copy. Ask me your questions about dye and prints in person.

Classes (R396 paid in advance)

Classes last 3 hours and we supply all the materials that you will need. Your place in the class is reserved as soon as we receive full payment in advance. Payments are non-refundable. If you cannot make it on the day due to some unforeseen circumstance, you are welcome to attend a later one. Please wear old clothes! We get messy. **BOOKING IS ESSENTIAL!** If I do not have enough bookings for a class, it will fall away. If you are booked and paid for in advance, I am able to keep you informed of any scheduling changes. I do not cater to people who arrive on the day. I like to prepare thoroughly for a class and when extra people arrive unexpectedly it disrupts the flow for the other students.

Two-Day Colour Technicians Course (Johannesburg) 19 & 20 June

There is an intensive two-day Colour Technicians Course that you can attend if you are serious about mixing and matching your own colours. I will teach you how to mix the colours you want by eye and how to record them so that you can repeat them again at a later stage. You will learn a reliable methodology that will make it simple for you to reproduce your past results. This course is **R2495**, payable in full up front. The venue will be confirmed closer to the time.
